

Kofax Power PDF Advanced

The Leading PDF Software
Built for Business Users

Perfect Corporate Fit - Easy to Learn, Standardize on One Solution

Kofax Power PDF™ makes it easy to gain control over PDF workflows and provides everything you need to create, convert, edit, share and e-sign PDF files. The enhanced Power PDF 4 provides powerful PDF management built for business users with a familiar Microsoft Office-style interface. Power PDF meets simple to complex needs and provides strong security, so IT teams can standardize on a single tool.

Power PDF 4.1 takes another leap forward with improved adherence to accessibility standards, increased compliance through new redaction capabilities, expanded integrations with native cloud storage providers and efficiency improvements through enhanced Kofax SignDoc® integration (separate purchase required).

Power PDF Advanced Advantages

Maximize productivity and adoption with the best navigation experience

Power PDF Advanced offers a modern, intuitive user interface that is modeled after the acclaimed Microsoft Office ribbon interface. The Quick Access Toolbar lets you create shortcuts to frequently used features and capabilities.

Trust the most accurate document conversion solution

Power PDF Advanced uses Kofax OCR, the industry's most sophisticated technology. It precisely recognizes scanned text and faithfully reproduces complex layouts with columns, tables and graphics. It includes an OCR proofreader tool to help you see and correct text results, so the PDF documents are perfectly searchable.

KOFAX

PRODUCT SUMMARY

New – sign and send PDFs for signature with Kofax SignDoc®

Whether you're approving a purchase, closing a sale, or signing an agreement, it's easy to automate the signing process with Power PDF. Go paperless and seamlessly manage e-signatures within PDF files through integrated e-signature tools, such as Kofax SignDoc® (separate purchase required).

Collaborate in real time –

when it has to be done right the first time

Documents can be created and edited, together in Power PDF and in real time with users on the same LAN, without having to send them back and forth among various parties, leading to more efficient work.

Combine all open documents in just one click

Combine all open documents into a single PDF – perfect for saving work and streamlining tasks. Just click the "Combine All" option on the Home toolbar and bookmarks will be created from the file names of the original documents.

Benefits of Power PDF Advanced

Create and assemble PDFs easily from any application

Instantly create 100% industry-standard PDF files with security options that are fully compliant and compatible with all PDF viewers. Combine files and remove or replace pages with drag-and-drop ease.

Archive important emails as PDFs

Save Microsoft Outlook emails as PDF files along with any attachments and links.

Don't retype your documents

If you must work with PDF documents in other applications, don't waste valuable time recreating them – convert them. Complex layouts with columns, tables and graphics are faithfully reproduced in Microsoft Word, Excel, PowerPoint and Corel WordPerfect documents.

Utilize enterprise-level PDF security and rights management

Protect PDF files with secure 128-bit or 256-bit AES encryption and permission controls. Apply customized protection to PDF documents using Microsoft Active Directory or Microsoft Azure Rights Management Services.

Redact sensitive information

Advanced redaction capabilities removes confidential data for safe, secure document sharing.

Boost productivity with automated workflows

Automate and simplify document scanning, capture, conversion and redaction workflows. Utilize Power PDF's watched folder capability to convert several Microsoft Office documents into PDF files automatically.

Connect directly with document management system

Send or retrieve PDF files from NetDocuments, OpenText eDOCS, iManage Work, Livelink, OpenText Enterprise Connect, Worldox, EMC Documentum, Xerox DocuShare, Therefore, Office 365 and SharePoint Document Management Systems (DMS)

Key Benefits

- Create and assemble PDFs easily from any application
- Accurately convert PDFs into editable Microsoft Office documents
- Sign and send PDFs for signature using Kofax SignDoc® (separate purchase required)
- Create PDFs that are compatible with the ISO PDF 2.0 file format
- Enhance document security with powerful encryption, digital signatures and rights management
- Work with PDFs on touch-enabled portable Windows 10 devices
- Enjoy the same navigation experience as in Microsoft Office
- Work with any PDF forms
- Streamline document reviews and collaboration
- Native cloud integration with Microsoft OneDrive, Dropbox and Google Drive cloud storage

Newest Capabilities

- Enhanced redaction capabilities to remove sensitive or confidential images and text
- Disable the option to use self-signed certificates
- Boosts document conversion accuracy through Kofax OCR version 21, the industry's most advanced scanning technology
- Enhanced integration with Kofax SignDoc (separate purchase required)
- Improved adherence to accessibility standards and regulations with enhanced Accessibility Tag Editor and expanded PDF/Universal Accessibility creation
- Expanded use of export add-in code to improve file consistency and accessibility compliance
- New clean and modern user interface
- Saved time through Bates Numbering application across a PDF Portfolio
- Enhanced integration and improved security through iManage SDK v2.0
- Native cloud integration with Microsoft OneDrive, Dropbox, Box and Google Drive cloud storage
- Technology and environment updates, including improved recognition for local languages
- Enhanced Combine File capabilities to merge multiple PDF files
